

mPOS x Daraz Campaign

"Avail 10% discount by paying with Bank Card at Your Doorstep"

Why use mPOS?		
Convenient	Secure	Flexible
Free from cash and change hassle	International payments compliant, 100% 3DS secure	Multiple modes of payment

How Does Mpos WORK?		
1. DEX Hero will scan your card to fetch details using the HBL app in his mobile (alternatively card details can also be entered manually in DEX Hero HBL app).	2. Customer will receive unique OTP in their bank registered mobile number which has to be entered in DEX Hero's HBL mobile app to authenticate the transaction.	3. Upon successful OTP verification, HBL app installed in DEX Hero's phone will process the transaction and confirmation SMS will be received in customer's mobile phone from HBL.

mPOS transactions are a 100% secure
All mPOS transactions are fully secure as per industry standards (OTP verified) - a transaction is always verified through an OTP received by customer on their mobile phone registered with the bank.
